Instructions

Based on the attached video clip, create a simple webpage showcasing your use of the following technologies:

— HTML
— CSS, using a pre- or post processor, or both
— Javascript

Your test will be evaluated based on the following criteria:

— Level of detail and accuracy in your interpretation of the design
— Choice of technology suitable for this assignment
— Code cleanliness and organisation

There is no timelimit. When finished, please publish your work to Github and send the link of the repository to work@madepeople.se.

Good luck!
